Program & Specialization	M.Tech. (CSE)
Academic Year	2025-26
Semester	Odd Sem
Supervisor	Prof. Manjubala Bisi
Month	September

Monthly Progress details:

Title	Reliability of Explainable AI on Software Defect Detection (SDD)
Problem statement/Objectives	The challenge is to design a new parameter to check the reliability of XAI in software defect detection where unstable explainability can be risky
Progress Summary	• Implemented the approach for calculating the reliability score for SDD problem. • Coded and tested the pipeline with proposed reliability metrics (GLR, Hit@k, ECE). • obtained stable, reproducible results confirming approach effectiveness.
Planned work for next month	• Implementing the framework on different models. • Testing the Generalizibility of Metrics.
